Web Developer | Anaheim, CA | 714-473-2390 | E: mtterrado@gmail.com

APPLICATIONS DEVELOPED

CBOND Shoes - Website: <http://cbond.hi5marie.com> | [GitHub](#)

- A 3-tier application that utilizes **ReactJS** and **Axios**, **PHP**, and **MySQL** to provide a demonstrated ecommerce solution.
- It utilizes components for products, lists, details, cart, and purchases, as well as routing to display the proper component at the right time. The server has data sanitization and error handling for all of its endpoints.

FindFlix - Website | [GitHub](#)

- Web app using **HTML**, **CSS**, **JavaScript**, **jQuery**, Asynchronous data calls through **AJAX** and using **JSON**. Utilizes **API** calls to access Google Maps and Google places for location services and business information, Youtube for video links and information for trailers, and IMDB for movie information.
- Displays a full list of movies, where they are playing, and a trailer for each so you can make an informed choice about what and where to watch.

Memory Match - Website | [GitHub](#)

- Utilizes **HTML**, **CSS**, **JavaScript** and **jQuery** to provide an interactive game experience using events, functions, and dom manipulation to display up-to-date game states.
