

MARIE CHRISTINE TERRADO

Web Developer | Anaheim, CA | 714-473-2390 | mtterrado@gmail.com | [Linkedin](#) | [GitHub](#) | [Portfolio](#)

APPLICATIONS DEVELOPED

CBOND Shoes - Live | [GitHub](#)

- A 3-tier application that utilizes React and Axios, PHP, and MySQL to provide a nearly full ecommerce solution.
- It utilizes components for products, lists, details, cart, and purchases, as well as routing to display the proper component at the right time. The server has data sanitization and error handling for all of its endpoints.

FindFlix - Live | [GitHub](#)

- Web Web app using HTML CSS, JS, jQuery, Asynchronous data calls through AJAX and using JSON. Accesses Google Maps and Google places api for location services and business information, Youtube api for video links and information for trailers, and IMDB api for movie information.
- Displays a full list of movies, where they are playing, and a trailer for each so you can make an informed choice about what and where to watch.

Memory Match - Live | [GitHub](#)

- Utilizes html, css, JS and jQuery to provide an interactive game experience using events, functions, and dom manipulation to display up-to-date game states.
